

# ECLIPSEVOX™ A-Z

The Vox Academy

Jennifer “Jen” L. Thompson, CCR, CVR-M

# ABOUT ME

Jennifer “Jen” L. Thompson, CCR, CVR-M

I have been in the legal industry since 1987, where I began my legal career as a paralegal. I went on to become a court reporter in 1993. With voice writing schools being few and the need being great, I co-founded the first voice writing court reporting school in South Carolina in 2000.

For close to three decades, I have served the profession as a court reporting firm owner, court reporting instructor, and freelance court reporter. I am a Certified Verbatim Reporter - Master with the National Verbatim Reporters Association, as well as a Certified Court Reporter with the state of Georgia.

I have served in numerous leadership capacities, including President of the SC Court Reporters Association, and I'm a long-standing member of NVRA, SCCRA, and GCRA.

Known as one of the court reporting industry experts and leaders in voice recognition, I conduct private training as well as online webinars and programs. I'm a certified advanced EclipseVox™ trainer and frequently speak and present at technology seminars and association conferences.

Eclipse Seminar/Conference/Trainees include:

Advantage Software

Eclipse Software Professionals

Virginia Court Reporters Association

Court Reporting School of South Carolina

The Vox Academy

United States Army

United States Air Force

United States Marine Corps

United States Coast Guard

# THE PROGRAM AND WHO CAN BENEFIT FROM ECLIPSEVOX™ A-Z

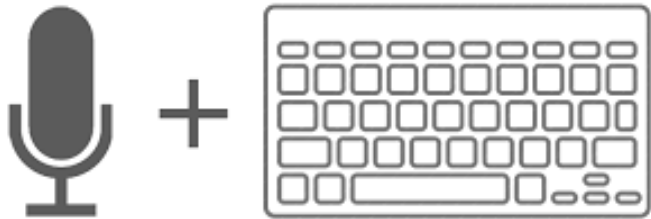

EclipseVox™ A-Z is a comprehensive training on the fundamentals of the EclipseVox™ CAT software. There are two offerings based on your level of experience.

EclipseVox™ A-Z *Basic* would be appropriate for brand new users or existing EclipseVox™ users with very minimal experience or formal training with the software desiring to gain a better understanding and knowledge of voice recognition and the EclipseVox™ software and how they work together.

EclipseVox™ A-Z *Plus* would be appropriate for more experienced users with a general working knowledge and understanding of the software. The sessions entail an overview of the basic fundamentals with a more in-depth approach to the advanced features.

# ECLIPSEVOX™ A-Z WHAT YOU'LL LEARN

The EclipseVox™ A-Z course objective is to provide the trainee with a comprehensive understanding of working with voice-to-text technology, customizing Dragon speech recognition software, maintaining strong voice profiles and increasing recognition accuracy and incorporating that into the basic fundamentals of EclipseVox™ in order to achieve excellent output results and more efficient transcript production.

## ECLIPSEVOX™ A-Z

- Length: Each of the EclipseVox™ A-Z courses are six (6) weeks of live virtual instruction.
- When: Class is held one evening per week, TBD per session (this will be the same night each week). All classes are conducted Eastern Standard Time and are recorded for unlimited reference and playback throughout the program length and for a full 60 days thereafter.
- Where: Via online meeting platform (currently Zoom )

### *PRE-REQUISITES*

Participant must possess:

- A solid working knowledge of the Windows environment and intermediate to advanced computer skills. Windows 10 Professional is recommended.
- Above-average grammar, punctuation and spelling skills
- Adequate typing skills

# FEES & COSTS

- The cost of the program does *NOT* include software and equipment.
- EclipseVox™ A-Z Basic - \$599
- EclipseVox™ A-Z Plus - \$599
  - Payment in full or 3 monthly payments of \$208 (includes a \$25 convenience fee)

## **PAYMENT METHODS**

- Cashier's check, credit card\* or PayPal/Venmo/Zelle accepted. (Zelle is preferred). \*A 3.5% fee will be added to all payments via credit card.

-

## WHAT YOU'LL NEED

- Business class Intel or AMD i7 quad-core high-quality processor or Ryzen 7 AMD processor; minimum 16 gig RAM; 512 SSD, Windows 10 or 11 Professional. These are minimum requirements and it is recommended to upgrade where budget allows.
- Dragon Professional 15.3 or higher. [NOTE: Version 15 is no longer available. If you don't already own it, you'll need to purchase Version 16. If you have a Windows 11 computer, you will need Version 16] I strongly recommend purchasing from [Knowbrainer.](#)]
- Stenomask: Options available are [Talk Technologies SR Pro-1 or 2](#) or -- [Martel Mini Mask](#) \*ask me before purchasing
- USB Audio Device (Sound Card) – [Andrea PureAudio MA or SA](#); [SoundBlaster Play3](#); are recommended choices. [The links provided are for informational purposes only. You may find them for less at other retailers.]
- Transcription foot pedal – Infinity [USB-2](#) is recommended. [USB-3](#) is available and works with both of the recommended transcription software above as well as with EclipseVox™ Version 10. It is NOT compatible with v9 or lower of EclipseVox™.
- Wired earbuds or headphones (noise cancelling recommended). Do not get a headset with a microphone.
- \*Assistance with procuring all items is available.

## ***OTHER IMPORTANT STUFF***

**Once an application has been completed, submitted, and accepted, the terms and fees are locked in. Up until that time, all information including, but not limited to, costs, fees, and class content is subject to change.**

**The Vox Academy is not a school and does not accept financial aid of any kind. Payment arrangements are subject to all parties fulfilling their respective duties. Any agreements can be terminated at any time for failure to comply and access to recordings and class content, past and future, will be forfeited.**

**The Vox Academy does not guarantee employment, job placement, or successful passing of national and/or state skills certification examinations.**
